

TOWN SELLS SMALL BLOCK OF DEBENTURES

Councillor Devitt Asks For Sidewalk for Accommodation of Children—Council to Plant Trees

The regular meeting of the town council was held in the council chamber last Monday evening. Mayor Bott was in the chair and the following were present: Councillors LaVelle, Oates, Devitt, Ireland, Lydiatt and Crowe.

The minutes of the last special meeting were read and adopted. Councillor Devitt introduced the matter of building a sidewalk from First street to Third street and stated that since the school risk started to thaw out it was impossible for children in that section of the town to get to school without going through mud ankle deep. The engineer was instructed to get estimates as to cost of material, etc., and report at next meeting.

A letter was read from a C. F. R. official regarding the rent on the mobile yard track. As this is a matter in which the Clay Products Company is concerned, the following committee was appointed in the hope of clearing up the matter: Councillors LaVelle, Lydiatt, Crowe and the Mayor.

On motion of Councillor Crowe and Lavelle the action of the mayor and clerk in selling a small block of debentures was approved and they were empowered to make a further small sale if the same satisfactory terms could be arranged.

A letter was read from the Experimental farm at Indian Head in answer to a letter by Engineer Aske with enquiring about trees for planting in town. The letter stated that the farm had no trees which the council as a lumbering enterprise was not used up the supply.

A committee consisting of Councillors Ireland, Devitt and Engineer Aske was then appointed to see if trees could be secured from some other source and also to procure tree seeds to be distributed among any of the citizens who would volunteer to help raise the necessary trees for beautifying the town.

On motion of Councillors Crowe and Oates the secretary was instructed to have the financial statement for 1915 published in this week's issue of the Review as required by the town act.

On motion of Councillor Crowe and Crowe E. L. Stone was appointed auctioneer for the tax sale to be held on March 24th.

Some small accounts were passed and ordered paid, after which the council adjourned.

Financial Statement Of Red Cross Society

Since there appear to be some who are anxious to know how much money is collected for the local Red Cross association, and how the same is disposed of, we have secured a financial statement from the treasurer and publish it in this issue. This matter was brought up at the meeting of the executive held last Sunday, and it was decided to have a similar statement published every month. This being the case, it will be well if those wishing to keep posted in the financial affairs would preserve this statement for reference from time to time.

The following is the present statement:

RECEIPTS.	
Balance in hand when organized	—
February, 1915	\$191.00
March, 1915	116.40
Burns' Supper	27.61
State of Material	20.00
Leap Year Day	—
Belling Mills, 60.00	—
Empress Theatre, 22.50	—
Concert, 45.50	132.70
PAIDMENTS	\$477.19
Calgary Branch for Wool	\$ 25.42
Other Material purchased	137.60
Calgary Branch for Leap Year	—
Buy Paid	132.70
Cash in hand, March 14	177.05
\$477.19	

Red Cross Society Makes Big Shipment

Since its organization as an independent branch the local Red Cross Society has been doing some good work and they made their first shipment of goods this week. The shipment was made up as follows: Forty-four surgical shirts, 16 plasters, 1 bed jacket, 40 T bandages, 4 dozen bandages, 20 dozen white handkerchiefs, 4 dozen colored handkerchiefs, 27 pair socks, 32 hot water covers, 46 bed side bags.

Although this is a fairly good showing there is still much work to be done and the members of the association are anxious that every woman in town who can should join and assist in this work.

The collections for last month amounted to \$64.50.

Manitoba Goes Dry By Large Majority

By a vote of a little over two in one of the province of Manitoba voted last Monday in favor of the Manitoba temperance act, which closes all bars, saloons, license and club licenses.

Manitoba is a province as from ancient times. Liquor may still be imported by private persons from outside provinces, and the manufacture of wine in the province for export is still permitted. These are the constitutional limitations placed on the province in legislation along this line by the federal government.

The total vote for the whole province was, Dry 44,049; Wet, 20,725. The vote for the whole province was, Dry 44,049; Wet, 20,725.

Only two constituencies gave majorities against the act, these being St. Boniface and St. Boniface.

A notable feature was the fact that foreign-speaking districts, particularly Icelandic and Scandinavian colonies, gave enormous majorities in favor of the prohibition.

Every addition to the prohibition was "dry."

CHURCH NOTICES.

CHURCH OF ENGLAND.

Friday: Evensong and preparation for holy communion, 7.30. Choir practice at 8.

Sunday next (19th): Holy communion at 8 a. m.; matins at 11.

Sunday school and special sermon at 7.30.

Monday: Junior W. A. 4.30.

Wednesday (22nd): W. A. 2.30; litany at 5 p. m.

Thursday (23rd): Special Lenten service, 7.30; prayer, Rev. A. M. Harding, Medicine Hat.

Lent comes this year with a very unusual and all church people are self-denial and deepened spiritual life. It is hoped that real effort will be made to attend the special service which all Christians are cordially invited.

FIRST BAPTIST CHURCH.

— Reid's Hall.

Sunday morning at 11 o'clock.

Sunday school and Bible class at 2.30.

Song service, 7.15; evening service 7.30.

Strangers heartily welcomed.

Rev. Don Campbell, pastor.

Ladies' Aid meets at Mrs. Campbell's Thursday at 2.30.

THE PRESBYTERIAN CHURCH

Divine worship at 11 a. m. and 7.30 p. m. All are welcome. Sermons made by the choir.

Sabbath school at a quarter past two.

Prayer service on Wednesday evening at 8 o'clock.

Ladies' Aid meets on Thursday at 8 p. m.

THE UNION BIBLE CLASS.

This un denominational class meets in the Presbyterian church every Sunday at 2.30 p. m. All adults are welcome. The studies at present are in the Acts of the Apostles, the most fascinating history, where we see the early development of Christianity.

Dr. Elton L. Harrison, formerly of St. Anne, who is now surgeon general of the state of Sonora, Mexico, in the employ of the Canadian government, with a salary of \$100 per week, has asked for an appointment with the Canadian expeditionary force.

I. O. O. F. To Hold A Social Evening

Redcliff Lodge, No. 50, I. O. O. F., is holding an invitation to a social evening and dance in Reid's hall on Friday evening, March 24th.

As there are a number of Old Fellows and Rebekahs in town who have lost made themselves known to the lodge they are requested to consider this notice as an invitation to be present in case they should not receive a card.

The music will be furnished by O'Fallon's orchestra and an enjoyable time is expected.

Conls will commence at 8.30 and dancing at 10 o'clock.

Wind Last Sunday Blows Mill Whistle

The blowing of the Rolling Mills whistle last Sunday when a gale was blowing at about 40 knots an hour, moved every one who heard it on the move. People ran to the whistles and excitement ran high until it was discovered that the wind had done the trick. A place in the tin from the mill had blown against the whistle and kept the whistle blowing till it was removed.

Verdun Battle Will Continue Some Time

Although fighting is being continued around Verdun, no report of any serious change has as yet come through. At the commencement of the struggle the light is reported to have said he would sacrifice 200,000 men but get Verdun.

French experts point out that he has lost fully this number of men, that these weeks fighting in that vicinity and is no nearer Verdun than he was then.

French papers state that the German staff must weaken other points of their front by withdrawing men, and also deplete their reserves still in Germany. They also claim that the French lines were relatively unimpaired and were considerably lower than the casualties during the Champagne offensive.

Leading French military men say the fighting will continue as bloody as ever for the coming week and that the labor will continue to build his best troops against the French front, but that unless an entirely unexpected change occurs Verdun will remain impregnable.

Verdun is a battle of attrition and is bound to continue for many days, and that Germany must fight on to avoid a possible defeat.

All trace of armvrouses appears to have disappeared in Paris.

Important Positions Retaken By French

The Paris correspondent of the Daily Mail, attributing the new hull in the Verdun fighting observed two days ago to German losses, says that the ferocious struggle of the past week has so terribly broken the Kaiser's troops that whole brigades have practically ceased to exist as units.

The latest assault by German infantry, between Bethincourt and Cumieres, resulted in the winning of some positions but, by counter attack the French succeeded in retaking a portion of the ground and they held Bethincourt, the height of Le Mont Homme, the village of Comiers and the southern boundary of Cumieres wood, all positions of great strategic importance.

To the east of Verdun there has been considerable activity around the town and the battle has been close-range is still in progress around the eastern slopes of Fort Vaux.

For the first time the German position of some of the hardest fighting.

U. S. Government Goes After Villa

The United States government entered into a formal agreement with the de facto government of Mexico under which American troops will cross the border to hunt down Villa and his band who have been the cause of heavy co-operation of the Carranza forces.

To prevent any war munitions from reaching Villa from the United States the treasury department instructed its collector general in Mexico to seize any existing organizations, was passed at Washington without objection or debate and with one dissenting vote.

Major Melvina of North Bay has been asked to deliver any address in North Bay.

A try on all people attending football games, race meetings and other sporting events, both indoor and outdoor, will be held in Britain.

A joint resolution, authorizing the president to bring the regular army up to full strength by adding 10,000 men to existing organizations, was passed at Washington without objection or debate and with one dissenting vote.

BARBER'S STORE BROKEN INTO LAST NIGHT

Burglars Enter Store by Window and 'Fake Valuable Goods' Mounted Police on the Trail—No Clue

When the clerks in the Broadway Department Store came down to work this morning they were surprised to find that things about the store were not just as they had left them last night. Everything was topsy-turvy and at once the clerks got suspicious that some uninvited guests had visited the store during the night. On investigation their suspicions were found to be correct. It was found that the side door on second street was broken and a panel broken in but after going to the back of the store that was to some obstacles on the inside they could not gain admission by that route. They then went to the rear window over the elevator shaft and with the assistance of an old clerk, which they left behind, succeeded in opening the window and getting inside. From here they evidently made their way down stairs to the dry goods department and proceeded to lay up with the most valuable goods in this department.

It was not until 10 p. m. that the clerks had just left in the absence of the day before a fine assortment of silks suitable for ladies' waists and dresses. These were all taken with the exception of a few lengths which the light flattered goods had evidently dropped in their hurried exit.

Behind this a number of pairs of boots and shoes are missing.

As this store is a large one, occupying six floors, all well stocked, it is not likely to say just how much other goods were taken but so far, about three hundred dollars worth of silks, boots and shoes and other articles are missing.

The mounted police were at once notified and were soon at work, but so far they have no definite clue as to where the guilty parties are. They have their suspicions, however, and expect to run the culprits to earth before long.

Verdun is the first we have heard in Redcliff for some time and reminds us that there might be some reason for a night patrol of some kind.

Under present conditions when all towns and cities are making an effort to retaliate by cutting down the police protection, it is an excellent time for night prowlers to get in their dirty work and they are not slow to do so.

It is quite evident the guilty ones were well acquainted with the store and knew where to go for what they wanted.

Grain Commission Given More Power

In the house of commons this week the amendment to the grain act was taken up in committee of the whole. The amendment grants the grain commissioners power to order the railways to send cars to any locality where there is a congestion of grain.

The amendment is a welcome relief to the grain becoming damp in the spring and thus suffering great damage. Sir George Foster stated that the act of agriculture in Saskatchewan had asked for this legislation.

The power is similar to that recently given to the railway commission, only the grain commissioners will be able to act more in detail.

The amendment was given its second and third reading.

Major Melvina of North Bay has been asked to deliver any address in North Bay.

A try on all people attending football games, race meetings and other sporting events, both indoor and outdoor, will be held in Britain.

A joint resolution, authorizing the president to bring the regular army up to full strength by adding 10,000 men to existing organizations, was passed at Washington without objection or debate and with one dissenting vote.

Farewell Sentoff For B. E. Howard

A number of the members of the Redcliff club were in the club house last Friday evening for the purpose of giving B. E. Howard a farewell send-off party for his leaving for his new home in Revelstoke, B. C.

A social time was spent in song and story, during which several speeches were made in which the speakers expressed regret at losing such a worthy citizen. Mr. Howard left on the night train for the west.

Russians Continue To Make Progress

Advice from Petrograd indicates the progress in Persia of the Russians who are moving swiftly over difficult roads and in the face of considerable opposition towards the Mesopotamian frontier where shortly they will be in touch with the British army at Kut-2i-Amara and the railways from General Lake and Aylmer.

In the advance against the Turks along the Black Sea coast Trabzon the Russians have captured additional Turkish officers and men and two guns.

A British column has attacked an advanced position of the Turks in Mesopotamia, bayoneted a considerable number of them and captured others.

ADDITIONAL LOCALS.

R. R. Stoner and W. T. Lockwood were in Medicine Hat one day this week on business.

James Bell leaves this week for New Westminster, where he has secured a position as head machinist in a large plant there.

The Review is slightly behind last week as we were a little late in getting the copy for the town and provincial station which appears in this issue.

C. F. Jamieson, of Medicine Hat has moved to Lethbridge where he will reside for the present. Mr. Jamieson is well known in Redcliff and his friends here will be sorry to learn that he has left this district.

Among the latest recruits to join the 17th we notice the name of Robert J. Sands of Redcliff, who has been here for several years and at one time was employed at the Oranmament Iron Works.

C. Clark, of Calgary, has been engaged as barber in R. J. Crowe's shop. Mr. Clark has had a wide experience in his line in many of the larger centers and comes highly recommended as a talented artist.

Mayor Bott left for Edmonton today as a member of the delegation from this district to urge upon the provincial government the necessity of building the C. N. R. branch through here this summer.

Read over the ads in this week's Review and you will see that all the stores using our space are advertising big bargains in their different lines. Besides it will let you know where to go shopping. The Review is the stranger's directory.

Leonard McLean, manager of the Bellin Mills here, has successfully recovered from his recent illness and is now spending a few days with his mother. He expects to return to Redcliff next week.

The council is having a sidewalk laid from Broadway to the Glass plant. As there is a considerable traffic on this street both by the employees of the Glass plant and visitors going to see it working, the sidewalk was badly needed.

Miss Gray, who is employed in the Club Cafe, met with a painful accident last Monday. She was riding a window when she fell and her hand went through the glass, catching on the ragged edge and badly lacerating the palm. Dr. Brown was called and it took it necessary to put in several stitches to pull the wound together.

Although not serious the wound was very painful.

A disturbance was thrown out every 15 minutes from the meeting under the American rights committee in New York, when Germans planned to break up the meeting.

GLASS PLANT NOW MAKING LAMP GLOBES

Are Turning Out 2000 a Day. To Start -- 120 Men Now Employed at This Plant -- More Will be Added

The plant of the Dominion Glass Company here is indeed a busy place these days. The addition which was added to this factory recently is now equipped with the necessary machinery for making lamp globes and this week 15 more men and boys were added to the staff in this department.

At present the plant is turning out about 2,000 lamp globes a day and when the staff in this department is increased to 150 men it will be increased to 3,000 per day. Six more men will be added in a few days.

The process of making bottles of different sizes and other glassware manufactured at this plant has been a most interesting operation to watch but the most interesting of all. These are not made with moulds as the other articles are. They are blown by the operators. In this way the men have to be skilled at their work and the accuracy with which they turn out the finished article is simply marvelous.

Besides this new addition to the plant an important new machine manufacturing all sizes of bottles is also to be installed in the near future. This machine is already in the works. It is a mass piece of machinery and is the last word in up-to-date industry in its line. It is to replace the present machine which only makes the large quart bottles.

At present there are one hundred and twenty men employed at this plant and this number will be slightly increased almost immediately.

Financial Companies Must Invest in Canada

In the house of commons last Friday Sir Thomas White, minister of finance, moved the second reading of an act respecting the investment of life insurance companies.

This is the act forehanded in the budget speech, by which insurance companies will be compelled to invest a portion of their earnings in Canadian securities.

It was explained that under the terms of the bill insurance companies must, on December 31, 1916, invest in Canadian debentures in the value of 90 per cent of the increase in their net ledger assets during the year 1915, less an allowance for increase in loans and unexpired reserves.

The bill further provides that from February 15, 1916, all deposits placed by foreign companies with the Dominion government as security for policies written in Canada must be in the form of securities of the Dominion of Canada. This provision will remain in force until January, 1918.

Says Turkey Is Faring Revolution

The Salambia branch of the Young Turk committee has received information from Constantinople that a petition has been submitted to the new crown prince, signed by 70,000 persons, requesting the sultan to dismiss the Young Turk government, negotiating peace with the entente and dissolve the present chamber. The petition ends by stating that if the present situation continues it will end in revolution.

Britain To Postpone Call to Married Men

At the eleventh hour the British government has decided to postpone the call to groups 25 to 41 of married men, from the ages of 27 to 35, which was to have been issued this week. The call had been printed and was to have been issued yesterday. But as the result of the decision of the war council, they have now been cancelled without any date being fixed.

DOMINION PROHIBITION

According to reports from Ottawa K. B. Bennett, of Calgary, is to introduce an amendment to the present prohibition motion before the federal house asking for Dominion-wide prohibition. His amendment provides for giving power to provinces which already have passed prohibition measures, to prohibit the importation and manufacture of liquor within those provinces.

Although Mr. Bennett is not a cabinet minister he is one of the front benchers and it is reasonable to assume that his motion will receive good support from the government side of the house. Judging from the opposition press reports and from speeches made by opposition members of the house it will get a fair support from that side of the house as well.

Looking at this question from the different angles and seeing to it that the suggestion of Mr. Bennett is a fair and reasonable way of disposing of the bill for Dominion-wide prohibition now before the federal house. It will strengthen the hands of the provinces where prohibitive measures have already been or are about to be adopted, and at the same time will not be interfering with the much talked of "rights" of other provinces.

We are convinced that Dominion-wide prohibition is the only ideal solution of this question yet we also must admit that it would not be fair for the dry provinces to force their opinions on the wet provinces by legislation any more than it would be fair for the wet provinces to ask the federal government to throw out our prohibitive legislation.

At the present time each province has the right to pass legislation limiting and curtailing the sale of liquor and with the added power to prohibit its importation and manufacture it will only be a matter of a very short time until we will have Dominion-wide prohibition any way.

NOT TIME YET

Maximilian Hardin, a noted Hun journalist, makes a strong demand for peace and urges that the German government start negotiations immediately. Hardin says that upon Germany devolves the duty of making an offer of peace as she has heaped victory upon victory and that it would be proof of her strength, not weakness. He further says that if Germany waits longer she will find herself reduced to obey the will of her enemies.

Imagine a nation whose soldiers used little Belgian children as shields to protect them against the fire of British and French guns, a nation which rejoices when bombs dropped from Zeppelins killed innocent English children, a nation which crucified Canadian soldiers and executed when the bodies of murdered children from the Lusitania floated on the ocean, thinking that any duty devolves upon it, except possibly the duty of admitting its knowing and attempting to make reparation.

No, this is no time for Germany to talk peace with the hope of having some say in the final settlement. Her writers may take consolation in writing of her "victory upon victory" but where are they. After forty years preparing for her drive on

Paris she is still a year and half behind schedule time in arriving at that destination with no hope of ever making the grade. She has lost all her colonial possessions her commerce with the outside world is completely cut off and her navy is still bottled up. This is her record of "victory upon victory" and it was all done while the allies were getting ready for war. Now that Britain and her allies are about ready to start in at the real game of war, Hardin talks of peace. But no, Germany must wait. She must wait till she is reduced to the point where she will have to obey the will of her enemies.

THE MUNITION BUSINESS

When we think of the volume of business which the factories of the United States are doing in the manufacture of munitions we are inclined to imagine the republic is furnishing the bulk of this material to Britain and her allies. It is only when we are reminded that the United States is supplying less than two per cent of the shells and other munitions, that we have any idea of the enormous amount of war materials being used in this struggle. In the British Isles alone nearly one million men and women are engaged in the manufacture of shells in the government plants alone, while there are hundreds of privately owned concerns doing the same. Canada, Australia, New Zealand, South Africa and India are all doing their bit along this line while France is probably more thoroughly organized than Great Britain. Russia is doing very much as Lloyd-George did in England, while the whole of Japan has been turned into a workshop for the production of shells and other munitions. Italy and what is left of Belgium are also doing their share.

A GOOD MOVE

The town council is acting wisely in taking steps to have a number of trees set out on our streets this spring. The Review has advocated this step before and we feel sure that when the council starts the ball rolling our citizens will not be long in following the lead. The idea of securing seeds and distributing them among the citizens is also a step in the right direction and it is hoped all who possibly can will give the council every assistance along this line. The committee in charge might make arrangements with those who will take the seeds and look after the trees till they are big enough to plant, to allow them enough trees for their own property in return for their trouble. This is a matter every property owner should get interested in.

DANGEROUS WEEDS

One of the members of the local fire brigade drew our attention to a matter which should be brought to the notice of the council. It is in regard to the number of loose dry weeds on many of the vacant lots, lawns and streets. As the fireman pointed out, these would prove a very difficult problem to deal with if a fire should start any place in town. If they should become ignited, either from carelessness or from a burning building, it would not be long till they would get beyond control and spread all over town. "A stitch in time saves nine."

MANITOBA'S VOTE

Manitoba, like Alberta, has acted wisely in submitting the prohibition vote to the people before the women were given their franchise. Again, like Alberta, it has carried the measure by an overwhelming majority and as all this was done without the women's vote it is reasonable to assume that the prohibition question in these two provinces is settled now for all time to come.

TOWN OF REDCLIFF

Auditor's Report and Financial Statement for Year Ended December 31st, 1915

Medicine Hat, Alberta, March 14th, 1916.
 To the Mayor and Councilors of the Town of Redcliff, Alberta, Gentlemen,
 We have audited the accounts of the Town of Redcliff for the year ended December 31st, 1915, and beg to report that all our requirements as Auditors have been complied with, and the following is the result:
 The accompanying Statements, viz.:
 Exhibit "A", Balance Sheet as at December 31st, 1915.
 Exhibit "B", Receipts and Expenditure, Current Account, year ended December 31st, 1915.
 Exhibit "C", Income and Expenditure, Water, Current Account, year ended December 31st, 1915.
 Exhibit "D", Income and Expenditure, Water, Current Account, year ended December 31st, 1915.
 Exhibit "E", Summary of Receipts and Disbursements, Current Account, year ended December 31st, 1915.
 Exhibit "F", Statement of Debenture Debt as at December 31st, 1915, showing:
 Debentures Authorized.
 Debentures Issued and Unpaid.
 Sinking Fund Investment.
 Sinking Fund Accrued.
 Annual Interest and Sinking Charges.
 Exhibit "G", Memo. of Balance, Capital Account, December 31st, 1915.
 Exhibit "H", Memo. of Balance, Surplus Account, December 31st, 1915.
 We have verified the Bank Balances by Certificate from the Royal Bank of Canada, and have checked the cash in hand by actual count.
 The enforcement proceedings for 1915 Taxes have been completed and we understand that since the 31st December, 1915, Title to the property has been obtained.
 We would point out that the certificate of approval of the Minister of

Municipal Affairs was not attached to Bylaws 84, 85, 86 and 92 when examined by us. It is very essential that this certificate be obtained.
 All amounts called for in the various Bylaws, for which Debentures are issued, to be set aside for Sinking Fund and accruing as at December 31st, 1915, have been duly charged. We would recommend to your serious attention the fact that the instalments for the years 1914 and 1915, amounting to \$21,474.76, have not yet been deposited with the Provincial Treasurer.
 No physical inventory of Stores was taken at the 31st December, 1915. The Stores Ledger was, however, in balance with the Stores Account in the General Ledger. We would recommend that a physical inventory of Stores be taken as soon as possible, in order to complete the verification of the value of stores on hand.
 We would respectfully point out that all wages and salaries are in the nature of Accounts Payable, and should be authorized in the same way as trade payables' accounts. In order to bring this about, the total wages and salaries for the month could be appended to the monthly list of accounts and a schedule, detailing such amount placed on file in the Treasurer's office for reference. We wish to impress upon the Council the fact that no payment of any description should be made by the Secretary-Treasurer unless authorized by the Council, with the exception of Petty Cash Payments which, at regular times, should be authorized in bulk.
 We have checked all receipts and verified authentications of all payments with the exception of the following Expenditures on Capital Account, for which money has not yet been passed:
 Taxes \$208.71. Sewers, \$8,988.82.
 We have to express our appreciation of the courtesies extended to us during the Audit.
 All of which is respectfully submitted.
 Yours faithfully,
 (Signed) W. A. HENDERSON & CO.,
 Chartered Accountants.

Balance Sheet as at December 31st, 1915

NEW LINE OF SHOES

See his Window Display of "Famous Classic Shoes" just to hand. Prices to suit the times. Give me a call. Yours for business W. J. FAIRBAIRN, Broadway.

Pancakes Without Eggs
Take six ounces of flour and mix it with half a teaspoonful of baking powder and half a teaspoonful of egg powder, add gradually three-quarters of a pint of milk. Beat smoothly for a minute. Have ready a pan with an ounce of dripping from which rises a blue smoke. Fry the pancakes in the usual way. Turn them on to a sheet of paper sprinkled with caster sugar, and serve very hot with lemon and caster sugar.

Five Minutes Pie

Cut some cooked meat into small pieces and mix it with a few bread crumbs, a little chopped onion and sufficient stock, or gravy to moisten it well. Grease a pie-dish and half fill it with the meat mixture. Mash some cold cooked potatoes with a little dripping and put them on the meat; slice with a fork, and bake.

A Woman's Height
According to one authority, a woman's feet should be to her height in the proportion of fourteen to one hundred—that is, as nearly as possible one-seventh of the height.

No fewer than 176 different kinds of bananas are grown.

Something in That

John: "Just one more kiss, darling before we say good-bye."

Mabel: "Oh, John, you've had enough; wait till to-morrow night."

John: "Delays are dangerous; to-morrow night I may be dead, or you may have been eating onions."

PHONE 70. PROMPT DELIVERY.

ITEMS OF LOCAL INTEREST

F. Baird, town solicitor, is in Calgary this week on business in connection with the town.

Miss Joachim, of Medicine Hat, spent last week-end in town, the guest of Mrs. Ausman.

Miss Hermis, of Medicine Hat, spent a few days in town this week the guest of Miss Woodcock.

The financial statement for the town for the year 1915 appears in this issue.

The regular meeting of the fire brigade will be held in the fire hall next Monday evening. A full attendance is requested.

Rev. and Mrs. G. L. Gordon left last week for Calgary and other western points where they will visit for a few weeks.

O'Fallon's orchestra will hold a dance in Red's hall on St. Patrick's night. Lunch will be served during the evening.

Mr. and Mrs. D. H. Wedderburn and daughter spent last week-end in town the guests of Mr. and Mrs. Ed. L. Stone.

A. N. McCulloch, provincial manager for the Confederation Life Insurance, was in town this week, and while here appointed E. L. Stone the company's representative in Redcliff.

The postponed annual meeting of the Conservative Association for the federal constituency of Medicine Hat will be held in Medicine Hat on Friday evening, March 24th, at 8 o'clock in the evening.

A meeting of the local Conservative Association will be held tomorrow (Friday) evening in W. Kest's store for the purpose of selecting delegates to attend the annual convention in Medicine Hat on March 24th.

A. J. Nicholson, of Redcliff, who joined the 82nd in Calgary some time ago, has been transferred to the 170th at Medicine Hat. A. J. is now a lieutenant and is at the head of the signaling corps for that regiment.

If the weather continues fine like it has been for the past few days we understand that a number of farmers will start on the land next week.

Tomorrow (Friday) will be St. Patrick's Day. The Indian with his pipe of peace has passed away, but Daddy with his pipe has come to stay.

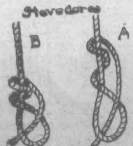

ECHOES

Among the most noted echoes in the town is the one which comes from the Hotel Strath, between Wales and Angleside. The sound of a blow from a hammer on one of the main girders of the structure is returned in succession from each of the cross-braces that support the roadway and from the opposite pier at the distance of 875 feet, in addition to which the sound is many times repeated between the water and the roadway at the rate of twenty-eight times in five seconds. Outside Shipley Church, in Sussex, England, is an echo which repeats twenty syllables for the most remarkable manner.

The famous echo at Woodstock, when awakened, answers no fewer than fifty times. In the Whispering Gallery of St. Paul's Cathedral the faintest sound is faithfully conveyed from one side of the dome to the other, but cannot be heard at any intermediate point. In Gloucester Cathedral a gallery of an octagonal form conveys a whisper 75 feet across the nave.

Can You Tie a "Gutterdew"?

A convenient knot for keeping the end of a rope from slipping through a hole or pulley is the stowder. The knot is easily tied after study

of the two drawings, which show it open, loosely tied (A) and tightened up (B).

A SLIGHT DIFFERENCE

Sir Herbert Tree, English Actor Tells An Amusing Story About Stage

Mr. Alfred Capper relates a delightful story once told him by Sir Herbert Tree, the renowned actor. "You remember," said Sir Herbert, "my Japanese play some years ago? Well, when I took it off His Majesty's I sent it out tour. Now it happened that a certain town was billed very profusely with this play and with the announcement of another play square at it, indeed, even more popular than my own. And both were announced as appearing on the same day, at the two chief theatres in the town. On the Sunday before the production, the day on which the provincial companies always travel from town to town, there was quite a crowd gathered to witness the respective arrivals of the two companies, who were due to travel by the same train. Well, the train steamed in, and the great but subdued excitement of the waiting crowd, and as mentioning a certain famous, and be it added, very stately and pompous actor-manager, who ascended from his saloon, where he had been travelling in great state, a courtly lady reporter stepped briskly up to him with pencil and note book ready in her hand, and said, with a pointed and affected accent, 'I beg your pardon, sir, but may I ask, or you "The Darling of the Gods" or "The Worst Woman in London"?"

A "Monocled" Statue

The statue to "Joey" Chamberlain in the precincts of the House of Commons is the only statue in England with an eye-glass. The accompaniments of statues are sometimes very odd. For instance, the statue to one of the Earls of Derby, the one who was Prime Minister, which stands at Preston, has beside it a pile of stone books with their titles on them. They are the works of his Lordship. Several statues are so accompanied by stone dogs. Byron's is in Park Lane, and so are the statues of Sir Walter Scott in Princes Street, Edinburgh, and James Watt, the Blackfriars, in Edinburgh. The latter dog followed his master, when he was really a shepherd. The fine statue of Robert Burns on the Shankhall shows Scott's darling holding a job in his hand.

TOWN OF REDCLIFF

Sale of Lots Forfeited Under Tax Inforcement Proceedings

NOTICE is hereby given that the town of Redcliff will again offer for sale by Public Auction, commencing at 10 o'clock in the forenoon, on Friday the 24th day of March, A.D., 1916, at Crowe's Hall, Broadway, in the Town of Redcliff, the lots previously offered for sale by the said town on the 26th and 27th of January last, on which no bid of the upset price or more was received. These lots will be offered for sale at the same upset prices and terms as contained in the notices which appeared in the issues of the Alberta Gazette on the 31st day of December, A.D., 1915, and 15th of January, A.D., 1916 and in the issues of the Redcliff Review on the 31st day of December A.D. 1915, and 6th, 13th and 20th days of January A.D. 1916.

F. H. COURTNEILL,

Secretary-Treasurer
